

Presentations on June 19, 24, 26, and July 1.**Assignment**

Pick one of your “extended” linguistic journal entries to present to the class. This should be a 8-10 minute presentation of your observation and how it relates to one or more topics covered in this course. You will be expected to use the terms and analytic tools that you have learned in this course, and to present a clear discussion of the relevant linguistic topic(s).

You will be graded on the following:

- 1) The clarity of your presentation
- 2) How well you understood the linguistic concept and connected it to the observation
- 3) Your use of the analytic tools and linguistic terminology learned in this course.
